## Pushes Speed Limits

*Computer Reseller News*

November 1, 2002

“The Phaser 7300 is so fast that it’s not easy to benchmark with a stopwatch, mostly because it’s difficult to keep track of how many pages have already been printed.”

“Image quality is top-notch, and color printouts have glossiness to them that some other brands do not.”

## Editor's Choice

*2003 and 2004 Color Laser*

*Printer Guide,*

*Better Buys for Business*

November, 2002 and 2003

“Very fast LED printer series built for high color quality.”

“We believe that in terms of performance and features, these [Phaser 7300 series] are excellent printers.”

“Based on our calculations, the Phaser 7300DN will exact about \$1,100 less on consumables over the first 100,000 pages than the [HP] Color LaserJet 5500n.”
